Endereço	Kingboard Fogang Specialty Resin Co., Ltd PVB film for laminated glass Kingboard Industrial Park Sijiao Town, Fogang County Qingyuan City
----------	--

PRODUTOS / MÁQUINAS

Brief Introduction of Products

1. Polyvinyl Butyral (PVB) Resin: copper foil coating use

At present, the yearly output of copper foil use PVB resin is 700 tons, and quality is as good as that of foreign made PVB resin. KB made PVB resin, as one of the original material of copper foil adhesive, enables Kingboard Group to get a new step on the adhesive field of copper foil as well as ensure that KB copper foil is adopted by foreign big companies.

2. Polyvinyl Butyral (PVB) Resin for PVB film and Polyvinyl Butyral (PVB) film

Now our yearly capacity of PVB film use PVB resin is 3000 tons, and PVB film is 4Million Square meters.

PVB film is a macromolecule material molded by polyvinyl butyral resin that is plasticized and extruded by plasticity DHA. PVB film, with the excellent light transparent performance, heat resisting and cold-resisting, elasticity, is well-sticking to inorganic glass and becoming the best gluey material in the world of making laminated safety glass at present.

PVB film is the semitransparent membrane, with no impurity, flexibility and smooth surface. Though there is certain roughness, it has well intensity of stretch proofing and extension at break.

The main specification of our PVB film includes: 0.38mm, 0.76mm.
