PRODUTOS / MÁQUINAS

Ware handling

A complete range of products to cover hot glass contact. Braids are welded to exchange parts to fit existing machines and mechanisms to ensure durability and longer life. Product range covers:

- Wiper / pushers
- Hot glass Guides
- Starwheel / radial transfer
- Stacker / Lehr loader

Take out products

NetOil supplies a complete range of consumable parts to facilitate the removal of hot glass containers from the I.S. machine to the dead plate. All custom finishes and GPI specifications (Glass Packaging Institute) can be supplied. The range of products cover the following:

- Graphite inserts
- Steel tongs

Conveyors

Pennine Industrial Equipment provides a complete product range for transportation of hot glass containers from the I.S. machine to the lehr. Multi, center and side guide chain with various assembly arrangements available to ensure maximum cooling whilst maintaining maximum chain strength. Product range covers:

- Machine and cross conveyor
- Sprockets

Hot end Lubrication

Interglass supplies a complete range of lubrication products from Gob shearing to finished container. The range cover the following areas:

- Shear lubrication oils
- Delivery oils
- Delivery coatings
- Blank and mould swabbing lubricants
- Touch up lubricants
- Neck ring lubricants
- I.S. machine lubricants
- Conveyor lubricants

Inspection and packaging

System RES supplies a range of consumable parts for cold end equipment. Parts are interchangeable with all major manufacturers of inspection machines and palletizer equipment. The range covers the following areas:

- Foam belts for camera inspection machines
- Roller bearings and rotating cuffs for rotary inspection machines
- Vacuum plates for wide mouth containers
- Wide range of gripper tubes to suit every container shape and dimension

Hot and cold end coatings

Imaca supplies a complete range of equipment and chemicals for the coating of glass containers. The product range caters for various line speeds and container dimensions and covers the following areas:

Hot end

- Coating hoods
- Central feeding systems
- MBTC material

Cold end coating

- Spray bridges
- Mixing stations
- PE Wax and sterate material

temperature measuring equipment

Land Systems provides a range of equipment to accurately measure molten glass and equipment temperature. Units are calibrated and repaired locally, thereby reducing cost and repair time. The product range cover the following areas:

- Gob temperature
- Blank/blow mould temperature

Mould cleaning/maintenance

Zirpro supplies a range of ceramic beads for rotary and air shot blasters. Less product usage compared to glass beads or steel shot with a much improved mould life.

HISTÓRIA DE EMPRESA

Redfoot Enterprises commenced business in 2006 with an objective to provide quality products which has proven it selves in the glass container manufacturing environment. The company has grown from strength to strength and now represents 8 leading international suppliers to the container glass industry in South-Africa.

Redfoot manufacture welded stainless steel braid parts to replace carbon, graphite and Teflon in the hot ware handling environment and export these parts to international clients and agents worldwide. Please go to products for a full product overview.
