PRODUTOS / MÁQUINAS

Caida is a professional manufacturer specializing in researching and developing EVA film. We have three international advanced production lines, more than 20 technicians and equip with various physical and chemical experimental facilities. For nearly a decade, we insist on the value: People oriented, integrity management. After a great deal of research experiment and practice, incessant enhancing scientific research and staff training, we successively develop a series of stable performance and excellent quality film, including: EVA film for solar cell module, ordinary film (transparent/opaque), high transparent film, low-temperature PVE film, ultra high transparent PVG film, color film (transparent/opaque/matte), paint film with pattern (transparent/matte) and other functional films. The thickness of the EVA film: 0.10mm, 0.13mm, 0.15mm, 0.20mm, 0.25mm, 0.38mm, 0.50mm, 0.76mm. We have advanced technology, strict quality management system and high quality staff term, which guarantee the stable and top quality. We develop and launch new products every year in order to satisfy the needs of different customers. So we gain lots of loyal customers both home and abroad. They all say: Caida film, perfect! They develop new products every year!
