HISTÓRIA DE EMPRESA

We deliver blowers and complete equipment for ventilation into the glass industry. Furnace ventilation, Machine cooling, tinbath cooling, combustion air supply, etc.

Our components are from certified suppliers. These include high performance fans with frequency converter, control dampers, complete ducting systems, nozzles, metal hose etc. As a service provider we are also a consultant that gives support paired with experience.

We have accumulated sound experience with respect to optimization of processes as well as optimization of energy consumption. We all are requested to investigate all processes with regard to their energy efficiency.

Together with well-known and established companies as ENVIGLASS from Gelsenkirchen, we belong to a group of service companies that can provide customers with first class services instead of commodity.

Each of the companies have its own range of expertise and on regular meetings and knowledge exchange this knowledge is spread and enlarged. Profitability starts with the process of planning. Our lines will be designed on a profound knowledge data base.
