Dear Customer :

We have started production of IS machine mechanism parts on the business tie-up contract between Nihon Yamamura Glass(NYG) from 2008.

This time our mechanism parts were assembled to section box by NYG and exhibited at China Glass in Beijing.

These parts were produced in Shanghai plant with drawing of NYG which are based on many experiences of them.

Many visitor has good impression and we hope that this section box will be help for cost reduction of your bottle production.

Best regards,

HIGUCHI
