

New journal: **Refractories Worldforum!!!**

- ✓ Specialized information on refractories and high temperature materials
- ✓ Reader segments user: steel, non-ferrous, cement, glass, ceramics, graphite, petrochemistry, power generation, waste incineration, refractory manufacturing, refractory engineering and suppliers
- ✓ 9000 copies per issue – worldwide

Ideal platform to reach customers!!!

Manufacturing & Performance of High-Temperature Materials

tories, raw materials and additives, plant and machine suppliers.

refractories WORLDFORUM readers are company owners, managing directors, R&D and production engineers as well as sales and marketing managers.

refractories WORLDFORUM is the new technical and scientific journal for the entire refractories sector: production, application and further development of high-temperature materials.

refractories WORLDFORUM is published four times per annum in English, addresses refractories professionals worldwide, i.e. in the production of refractories as well as in industries processing and consuming refrac-

refractories WORLDFORUM updates its readers on state-of-the-art processes and innovative technologies in the production and processing of refractories and reports on applications in industrial kiln and furnace construction for the following sectors:

- manufacture of iron and steel, non-ferrous metals, aluminium, cement, lime, glass and ceramics
- manufacture of high performance composites and coatings
- foundry, petrochemical, power generation and waste incineration industries.

Each issue also features market analyses of selected countries, company profiles and interviews with manufacturers and suppliers, and reports on new and upgraded plants as well as news items on companies, people, products, events of the sector.

refractories WORLDFORUM builds a bridge between industry and science. The editorial staff is supported by international members of the industrial and scientific editorial board (Chairman: Prof. Dr. C.G. Aneziris).

Manufacturing & Performance of High-Temperature Materials

Issue	central themes	ED	AD	PD	Fairs/Events
1	raw materials, material efficiency, slags/alternative fuels refractories for ceramics industry	15.11.10	08.12.10	07.01.11	ACerS St.Louis Meeting, St. Louis/US, 23.–24.03.2011 International Conference for Refractory Experts and Metallurgists, Moscow/RU, 31.03.–01.04.2011 Indian Ceramics, Ahmedabad/IN, 15.–17.03.2011 Global Fuels Conference, Kuala Lumpur/MY, 12.–13.04.2011
I	refractories HOT TOPICS	24.01.11	31.01.11	15.02.11	newsletter
2	refractories for glass industry high temperature materials for furnaces and boilers refractories for waste incineration and cement industry	23.02.11	14.03.11	13.04.11	9th INFUB, European Conference on Industrial Furnaces and Boilers, Estoril/PT, 26.–29.04.2011 Int. Refractories Conference, Prague/CZ, 10./11.05.2011 52nd Cement Industry Technical Conference, St. Louis/US, 22.–26.05.2011 85th DGG Annual Meeting, Saarbrücken/DE, 31.05.–01.06.2011
II	refractories HOT TOPICS	21.04.11	03.05.11	17.05.11	newsletter
3	refractories for foundries carbon and graphite	13.04.11	16.05.11	14.06.11	Thermprocess, GIFA, METEC, Newcastle, Düsseldorf/DE, 28.06.–02.07.2011 4 th DGFS Conference, Düsseldorf/DE, 28.06.2011 Carbon 2011, Shanghai/CN, 24.–29.07.2011
III	refractories HOT TOPICS	23.06.11	11.07.11	25.07.11	newsletter
4	energy efficiency, environmental, protection refractories in petrochemistry and metallurgy	15.06.11	15.08.11	15.09.11	Colloquium on Refractories, Aachen/DE, 19.–20.10.2011 UNITECR 2011, Kyoto/JP, 30.10.–02.11.2011 Refractory Materials and Slags in the Metallurgy, details tba, autumn 2011

Manufacturing & Performance of High-Temperature Materials

- Refractories industry suppliers (raw materials, auxiliaries, equipment, services maintenance)
- Manufacturers of refractories, carbon & graphite and high performance composites and coatings

- Refractory engineering, kiln construction
- Refractory experts in the iron and steel, cement and lime, glass, ceramics, aluminium, non-ferrous metal, foundry, waste incineration, power generation and petrochemical industries

Manufacturing & Performance of High-Temperature Materials

refractories WORLDFORUM is published in co-operation with (see www.refractories-worldforum.com):

- ACerS American Ceramic Society, Refractory Division

- VDFFI – German Refractories Association

- DGM – German Association for Material Science (Deutsche Gesellschaft für Materialkunde e.V.)

- FOGi Forschungsgemeinschaft Industrieofenbau im VDMA

- IRMA Indian Refractory Makers Association

- PRE – European Federation of the Refractories Producers

- Refractories Window

- MORE-Freiberg e.V. (Meeting of Refractory Experts)

- SECV – Spanish Ceramics and Glass Society

- HVG and DGG (Hüttentechnische Vereinigung der Deutschen Glasindustrie e.V. und Deutsche Glastechnische Gesellschaft e.V.)

- FIRE – Federation for International Refractory Research and Education

- TARJ – Technical Association of Refractories, Japan

- Refractories Committee of the Steel Institute VDEh (Gemeinschaftsausschuss Feuerfeste Stoffe im Stahlinstitut VDEh)

refractories WORLDFORUM HOT TOPICS

The increased circulation of the publication refractories WORLDFORUM will be supplemented by our new quarterly newsletter.

refractories WORLDFORUM HOT TOPICS provide an additional communication platform for company and market news, events and product launches. In brief pre- and reviews of fairs and international congresses are presented. Feedback from our readership will complement the information given.

With our magazine (quarterly), newsletter (alternating quarterly) , on-line portal (daily) three information channels are set up for the global refractories community.

Refractories suppliers

refractories WORLDFORUM will build up an international business guide for all suppliers to the refractories industry and their affiliated segments. All relevant suppliers can make their individual registration on-line. This subscription on www.refractories-worldforum.com is **for free** until 31st December 2011. An index is provided, further insertions (no trademarks) can be suggested.

If you have any questions – contact us.

cfi - ceramic forum international is a technical journal for the ceramics industry. It provides an international overview of state-of-the-art technology and processes, with a focus on tiles, tableware, sanitaryware, refractories as well as heavy clay and advanced ceramics and also the sectors carbon and powder metallurgy. The reports include evaluations of the latest findings and products from the supplier industry (raw materials, plants). In addition, substantiated market analysis, reports, economic topics, company profiles, ventures and product developments are also featured. (Volume 88 (2011) includes 8 english-language issue, plus 1 each in mandarin and russian language). For further information please visit: www.cfi.de

The Journal of Ceramic Science and Technology publishes original scientific articles on all topics of ceramic science and technology from all ceramic branches. The papers may have either theoretical or experimental background. A high quality of publications will be guaranteed by a thorough reviewing process carried out by an esteemed international editorial board. The first issue was published on Sept. 1st 2010. Volume 2 (2011) will comprise of four issues. For subscription and paper submission details please see: www.ceramic-science.com

Both Journals are published by Göller Verlag on behalf of the German Ceramic Society (DKG).
