## COMPANY PROFILE

Glasspower Engineering India Pvt Ltd was founded with an intension of providing commercially viable engineering services and products to world's leading Glass manufacturers. With access to global glass technology, through its strategic technological partnerships, Glasspower is uniquely placed to serve the needs of both the Indian and global glass manufacturing industry. It's highly professional and customer-centric team gives Glasspower the edge against its competitors.

Glasspower Engineering was founded two years ago by Ashutosh Joshi and he continues to be the driving force, guiding the organization to design & deliver solutions to its clients. Ashutosh is a renowned name in the international glass fraternity. With a rich experience of more than two decades, he has successfully demonstrated capabilities in engineering, projects, plant operations and strategy across APAC, MENA and Europe.

Glasspower continuously works on new, cost-effective and innovative technologies to solve business critical problems of its customers. Its focus is to evolve as a complete system integrator and solution provider for glass manufacturers in India and across the world. Glasspower Engineering intends to evolve into a reliable and highly cost effective sourcing agency from India for buyers in western countries.

To fuel its aggressive plans, Glasspower has engaged a highly competent workforce and strategically set up a fully-built workshop to manufacture and assemble equipment in Pune, a manufacturing & IT hub in Western India. Glasspower has also set-up a state-of-the-art design centre which will be scaled up in 2017 . Glasspower's highly motivated team of 41 professionals (including specialists in glass technology) and its network of vendors and service providers are eager to serve its customers 24 X 7.
