

ZIPPE is thinking ahead ...

# "Control your **complete batch plant** easily via tablet or smart phone"

## Batch house control system as part of a PWA-solution (PCS7)

- Max. availability via redundant servers
- Unlimited function even "out of touch and isolated from the network"
- Clear outline and assignment of responsibility and guarantee
- Batch house experience and 24h-hotline from the market leader
- and still integral part of the PWA

Solution
