New Feature 2016:

Powered by SCOUT is not just software. While it is true that SCOUT is software, it also is the platform that will be the foundation for current and future inspection technology improvements. Today, SCOUT allows BEG to offer better lighting, higher resolution optics, faster and more powerful processors, advanced inspection algorithms and a simplified user interface that is both intuitive and easy-to-use.

Regardless of the inspection configurations, all FleXinspect machines delivered today are equipped to operate with SCOUT and all of the technologies and benefits it offers. Current users of the FleXinspect B, C and BC machines will be able to update their equipment to SCOUT and gain the functionality and advantages it offers.

HISTÓRIA DE EMPRESA

With a market of approximately 200 billion containers per annum, glass as a packaging material, offers a sophisticated and appealing packaging concept. To service this market, Emhart Glass, founded in 1912, offers a comprehensive spectrum of sophisticated, reliable machines and equipment for the glass container industry.

Emhart Glass is the world's leading international supplier of equipment, controls and parts to glass container industry.
