PRODUTOS / MÁQUINAS

1. The company BESCO GmbH, located in Düsseldorf, is a German distributor for solar modules and solar cells. We sell products of our company BLD and of our partner company CEEG. Since June 2008, our own manufacturing company BLD Solar Technology Co. Ltd. has been producing solar modules in accordance to international standards in the newly built 50 million € plant in Zhejiang (East China). Capacity currently amounts to 50 MWp for the year 2009 and is about to be expanded further. The company is certified according to ISO 9001; VDE, TÜV and CE certifications are scheduled for the immediate future. BLD is already producing as a supplier in accordance with the applicable standards. In addition to our own modules, we sell solar modules made by CEEG PV-Business, a leading company in the Chinese photovoltaic market. CEEG manufactures modules with a current capacity of 250 MWp per year and is about to extend this capacity to 420 MWp by 2010. CEEG is certified according to TÜV IEC 61215, TÜV Safety Class II, SGS-EMC Compliance, ISO 9001, ISO 14001. The solar cells used are produced by Sunergy, a NASDAQ-listed company located in Nanjing, capital of the Chinese Jiangsu province. Sunergy manufactures international top-class solar cells. Currently, production capacity amounts to 320 MWp (SE, HP and P types). The R&D team is continuously working to improve solar cell technology and manufacturing methods. BESCO is your reliable partner for the entire transaction, from individual consulting to orders, logistics and after sales service. Central storage facilities in Europe In order to be able to quickly react to our customers' wishes, shipping requirements and need for replacements, CEEG operates a storage facility in Italy near Venice with the most widely used solar module formats amounting to 650 KWp. For the BLD products, suitable storage locations in the Düsseldorf area are currently being evaluated. We can thus ensure rapid reaction times and fast deliveries in the interest of our customers. 2. Products We manufacture both standard sizes and custom-made solar modules tailored to your needs. With our own production facilities operated by BLD Solar Technology Co. Ltd. and our partner CEEG PV-Business we are able to offer individual solutions to our customers. Thanks to our own state-of-the-art production and our cooperation with powerful partners, we are able to offer a comprehensive range of solar cells and modules. - Mono- and polycrystalline solar modules with a power rating from 8 to 280 Wp - Solar cells with an efficiency of 12.0 % – 18.5 % in the sizes 125 mm x 125 mm and 156 mm x 156 mm We provide excellent quality at affordable prices. The modules we supply have a life-span of more than 30 years. We provide top-quality material and precise workmanship. We therefore guarantee: - 5 years free exchange in case of defects in materials and workmanship - 10 years that the modules' performance will exceed 90 % of the nominal power output - 25 years that the modules' performance will exceed 80 % of the nominal power output 3. Company Philosophy „The sun – our reliable energy source BESCO – your reliable partner for photovoltaic cells and modules“ In the future the importance of solar technology will increase further – Put your trust in a partner who represents quality, efficiency and reliability in combination with affordable prices. B – Balance between Quality and Price: You get top products at affordable prices. E – Efficiency : We work fast and efficiently. Your requests will be answered immediately, your products will be on their way within 24 hours after you have placed the order. S – Service : Customer orientation is the pivotal principle of our company. For you we will make possible the impossible. C – Challenge : We offer customized, individual solutions for our customers. Special measures, special configurations... we do it. O – Opportunity : Your requirements and our services – together a good chance to advance solar technology and contribute to climate protection.
