Bonfiglioli Riduttori S.P.A
Via Giovanni XXIII 7/A
40012 Lippo di Calderara (Bologna)

PRODUTOS / MÁQUINAS

Bonfiglioli is a leading company that competes at the highest levels of the global power transmission market. Bonfiglioli designs, manufactures and distributes a complete range of gearmotors, drive systems and planetary gearboxes and boasts the best integrated offering on the market today. Bonfiglioli has enjoyed impressive growth in recent years. Efficiency and competitiveness have both been improved by the acquisition of established market-leading companies, the expansion of existing plant and the construction of new factories and, above all, by an ambitious programme of production process automation. The Bonfiglioli name embodies the values of experience and advanced technology, supported by constant dedication to the cause of innovation and research and by the financial resources necessary to sustain a process of continuous evolution. The Bonfiglioli Group offers the power transmission market three distinct brands: - Bonfiglioli Riduttori - Bonfiglioli Trasmital - Bonfiglioli Vectron The strength of these brands lies in the high technology content of each product and the careful integration of different technologies to provide an exclusive and synergic solution. Quite uniquely, Bonfiglioli has the core capabilities to develop systems which integrate electronic, hydraulic and mechanical engineering. These solutions represent choices of excellence for industrial systems and mobile machinery as well as innovative renewable energy applications in the wind turbine, solar panel and bio fuel sectors. Hi-tech industries and complex applications increasingly call for the ability to provide solutions and not just products. This can only be achieved with the appropriate expertise. And we are convinced that this is our unique selling point which we must foster and invest in our drive to promote innovation.
