PRODUTOS / MÁQUINAS

Compel Electronics Spa (www.compel.it), a leading international company in the design and manufacture of interconnection systems and cable assemblies for the telecom, energy, military and transport sectors, has applied its own competence to the photovoltaic sector developing and introducing onto the market a complete range of photovoltaic interconnections system. High Quality Photovoltaic Interconnection Systems dedicated to PV module manufacturer, PV installer and PV inverter manufacturer. Developed in Italy; all products are 100% electrically tested for a total guarantee of operation, TUV certificated and UL (work in progress). Particular attention has been paid to the design and the quality of the materials used and this has led to achieving important advantages. The design, the rolling up of the cable assemblies and the specific housing of the connectors allow either an easy manual positioning of the Junction Box or possible automation both of the positioning and of the electrical test with the solar simulator. Range of products: ? Junction Box for application on Tedlar/Pet/Glass ? Crimp connectors ? Panel connectors ? Adapters ? Coupling Cable ? Solar cable in reel ? Tooling
