## PRODUTOS / MÁQUINAS

We are specialised in manufacturing high-performance and high-quality PV cells. With phenomenal growth, NSP first made its debut on the Taiwan Emerging Stock Market in 2007, and was then listed on the Taiwan Stock Exchange's main board in January of 2009. Core Competences "Technology, Quality, and Customer Services" are three core competences of NSP. To ensure continuous improvement on making high-quality solar cells, NSP's technology development strategy is to improve cell efficiency, enhance manufacturing technology and develop new materials and devices. Today, our two fabs are achieving high levels of cell efficiency and electrical performance with competitive production cost. This success is attributed to our technical expertise that covers all disciplines of the photovoltaic industry, including silicon materials, wafers, solar cells, device designs and modules. With the broad in-house knowledge, we are able to provide comprehensive technical services to our worldwide customers. NSP is the first solar cell manufacturer in Taiwan that applies semiconductor management to solar industry. With many years of production experience from the semiconductor industry, we continue to make our products very competitive through strict quality control at all process steps.

### Company Profile of **Neo Solar Power Corp.**

A service of glasssglobal.com, an affiliate of glasssglobal group.
