PRODUTOS / MÁQUINAS

Reali Technologies LTD. developed, markets and operates RealiteQ, a unique and comprehensive technological solution for Global Distributed Control, Telemetry, Remote Monitoring & Data Management for Energy (Generators, Solar and Wind Energy), Water, Waste and other facilities. ASP (Application Service Provider) model for low cost solutions. Technology and Products: RealiteQ is an advanced modern platform that enables Global Internet Communication among facilities and devices, Data Storage and Analysis. The complete solution includes hardware, protocols, software, web HMI with full graphic editor and browsing possibility. Special functions exist as an integral part of the solution and enable vast range of expert systems to be interfaced to. End users and organizations with existing controllers may use our iCex – Cellular & Ethernet Explorer as their gateway to the system, while OEMs and controllers developers may use the embedded solution, iCex@CHIP RealiteQ solves worldwide connectivity over readily-available public infrastructure using the internet with different kinds of connections (landlines, wireless, cellular, satellite etc.), and is a unique technological innovation in the process control and communication market. Objective/Target companies: OEMs, Integrators, Municipalities, Utility Companies & Associations are warmly welcome as partners and users of RealiteQ Global Service.
