PRODUTOS / MÁQUINAS

STIEBEL ELTRON – a medium-size company Comfort through technology In 1924 the company founder Dr. Theodor Stiebel started in Berlin with the idea to develop and manufacture products consuming less energy, however providing improved safety and more comfort. This objective is today still very much in evidence at STIEBEL ELTRON. 85 years later, the company is one of the most successful suppliers in the field of domestic and system engineering and presents ideas that point the way ahead. STIEBEL ELTRON offers comfortable solutions concentrating on every aspect of the topics relating to DHW, renewable energies, room climate, and central heating. The company is now owned jointly by Frank and Dr. Ulrich Stiebel, the sons of the company's founder. The head office of the STIEBEL ELTRON group – and the greatest production site as well – are located in Holzminden / Germany. This is not only the home of the global administration and distribution organizations, but also the production site of many millions of electric space and water heating appliances as well as of systems and installations for using renewable energies. Furthermore, there is a high-tech factory in Eschwege / Germany plus three international production sites in Poprad / Slovakia, Ayutthaya / Thailand, and Tianjin / China. More than thirty years ago, STIEBEL ELTRON has started to develop appliances for using renewable energies. Nowadays, the company is among the leading suppliers of heat pumps for central heatings and water heating systems, ventilation systems with heat recovery as well as thermal solar systems. 15 subsidiaries and numerous representatives and sales partner offices around the world look after the company's interests outside Germany. STIEBEL ELTRON is a market leader in many important overseas markets.
