Glass Conveyor and Glass Handling Solutions

Innovative Conveyor Concepts Inc. offers a complete line of glass handling equipment. ICC glass handling equipment includes: auto breakout glass cullet conveyor systems, manual breakout glass cullet systems, flat glass line shaft conveyor systems, flat glass urethane band conveyor systems, overhead glass frame delivery conveyor systems, glass distortion measurement, glass accumulation, glass washers, glass handling robots, etc.

ICC Glass Handling Systems

ICC has a lot of experience in glass cullet handling. ICC has integrated large solar glass projects for some of the nations largest solar glass manufactures. ICC glass handling systems are pre-engineered and custom engineered systems designed to reduce labor cost, increase production, improve ergonomics, eliminate waste, etc.

Solar Glass Conveyor Systems and Equipment

ICC solar glass systems include solar glass transportation with low vibration and soft starts and stops, solar glass accumulation in horizontal conveyor lines or vertical accumulation towers, solar glass distortion measurement, solar glass inspection stations, solar glass robotics, solar glass palletizing, solar glass stretch and shrink wrapping, solar glass packaging and film, etc. ICC can provide a wide variety of solar glass and flat glass products.

Company Profile of **Innovative Conveyor Concepts**
