PRODUTOS / MÁQUINAS

The design and installation of **photovoltaic systems** will have a growing impact to Cyprus economy in the near future. The European Union encourages the development and use of alternative sources of energy, which positively affect the Cypriot market.

KISA Metal Works Ltd, in cooperation with one of our clients in Cyprus, has completed a new installation of four photovoltaic **solar parks** near the small village of Orounda. The total capacity of the solar panels installed in each solar park is 150 kW.

We are able to offer to our customers **stand alone roof systems** and **grid connected systems**. Substructures are produced either from aluminum or galvanized steel. Our offers also include fixed and adjustable versions.

In the same context, peripheral equipment and structures for **photovoltaic installations** are offered, including fences, shelters for inverters, mounts for monitoring systems and much more.

For the proper and effective operation of Photovoltaic's systems, **service and maintenance** is required. Our company undertakes this service under separate agreement with our clients.

Company Profile of **Kisa Metal Works Ltd**

A service of glasssglobal.com, an affiliate of glasssglobal group.
