PRODUTOS / MÁQUINAS

Nichigo G-Tape is an innovative pressure-sensitive tape which is hand tearable and leaves little or no residue on the surface. Nichigo G-Tape can even be removed from itself and reused unlike standard duct tapes. Nichigo G-Tape does not leave any residue on hands unlike conventional butyl tape in the construction market.

Made from a polyethylene based flat yarn substrate, Nichigo G-Tape boasts a higher tensile strength and dimensional stability than conventional gaffer tapes or duct tapes.

At the manufacturing facility in Japan, we have excellent in-house design and production of solvent acrylic PSA and can offer a wide range of adhesive strengths for our customers, from removable to permanent depending on the application's requirements. In addition, we can also supply special double-sided tapes which can be easily cut by hand. Typical applications for our tapes include surface or floor protection and paint masking for automotive, marine, rolling stocks, aviation, entertainment and construction Industries.

Depending on our customer's demands, we can also offer bespoke PSA tapes with excellent removability or permanent adhesion properties.

Company Profile of **Nippon Gohsei Europe GmbH**

A service of glasssglobal.com, an affiliate of glasssglobal group.
