PRODUTOS / MÁQUINAS

Allgaier – a leader for innovation in sheet metal forming

The company, with its headquarters in Uchingen, is an essential partner for the automotive industry. It also develops standardized and individual solutions for the process technology industry.

Allgaier's operative business is divided into two company divisions: Allgaier Automotive and Allgaier Process Technology.

The **Allgaier Automotive** company division is a system supplier for the international automotive industry. The main activities are in tool-making, manufacture of pressed parts, as well as system development and production of fuel tanks and other ready-to-fit components in the body segment.

The **Allgaier Process Technology** company division focuses on machinery and engineering for process technology. In this area, the company produces and supplies machines and systems worldwide for; washing, drying, cooling, screening and sorting for the processing industry.

In the production process – from development through to production – Allgaier works in close coordination with its clients. This means all customers always receive innovative and efficient solutions.

The companies and agencies of the Allgaier Group are present not only in traditional industrial countries, but also in up-and-coming international growth markets.

Every day, approximately 2,000 employees all over the world devote their knowledge and experience to meeting the most exacting quality requirements of their globally active customers.
