PRODUTOS / MÁQUINAS

Glasimport Greenhouses b.v.

The supplier for horticultural glass internationally. Glasimport Greenhouses constantly monitors innovations and, as sole supplier, can deliver "custom-made" low-iron diffuse glass with different haze factors and light transmission levels. Our domestic and foreign customers build greenhouses all over the world.

Glasimport Trading b.v.

The all-round supplier of building glass for the European glazing industry. On a small scale for the local glass processor who we can always supply directly from our warehouse in Kwintsheul and on a large scale with full container loads which we ship globally.

For many years we have had excellent contacts with different glass manufacturers throughout the world and this means we can provide our customers with a wide range of products. We are heavily involved in innovative trends in the glazing industry and are constantly looking out for new products. We also have good relations with different institutions & universities such as TNO and WUR Wageningen, enabling us to monitor new developments closely and to cooperate with our producers in developing new products.

Glasimport Greenhouses is a key glass supplier to countless hectares of greenhouses, built mainly by Dutch but also foreign greenhouse builders across the globe.

In our warehouses (approx. 2,200 m2) we have plentiful stocks of glass of different qualities. First and foremost, of course, standard float glass for applications in roofs and walls as well as many other types of glass.

We have three cutting lines and this enables us to cater for urgent orders and small deliveries for greenhouse builders and repair and maintenance firms.

HISTÓRIA DE EMPRESA

Since 1965 Glasimport has been an integral part of the Dutch glass market. Starting out as an importer of Eastern European horticultural glass, in the 1990s Glasimport developed into a regional glazing firm and supplier of replacement glass for greenhouse horticulture. Glasimport has now become a large-scale, global glass supplier and for all kinds of applications.

Since 1 January 2014 we have grouped our various businesses into 2 different operating companies:

Company Profile of **Glasimport B.V.**

A service of glasssglobal.com, an affiliate of glasssglobal group.
