THE BEST SOLUTION EVER FOR GLASS PRODUCTION

FLOAT GLASS / COMBUSTION TECHNOLOGY

UNDER PORT / SIDE PORT / THROUGH PORT / OXYFUEL

Flexible Befeuerungssysteme mit durchgängigen und innovativen Automatisierungslösungen garantieren ein Höchstmaß an Anlagenverfügbarkeit.

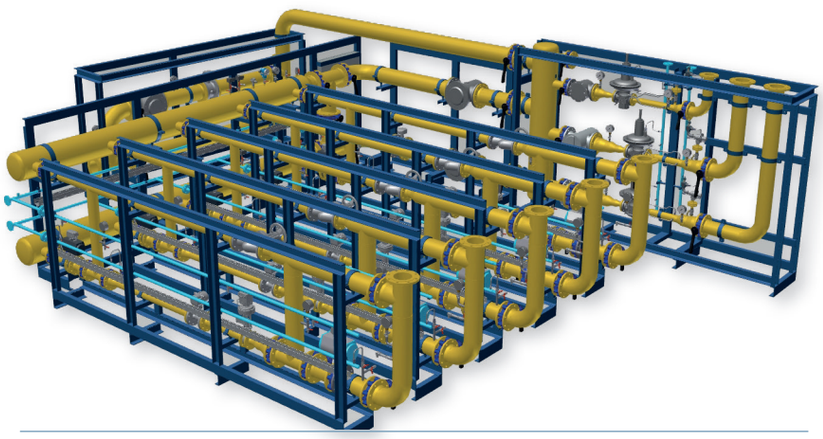

Die **UAS Messtechnik GmbH** bietet komplette Befeuerungssysteme inklusive Brennertechnologie zur Herstellung von qualitativ hochwertigem Float Glas.

- » **BEFEUERUNGSSYSTEM / SAUERSTOFF / NG – LPG / ÖL**
- » **BRENNERTECHNOLOGIE**
- » **FEHLERSICHERE SYSTEME SIL 2 / EN 746-2**

Flexible combustion systems with integrated and innovative automation solutions guarantee the highest level of system availability.

UAS Messtechnik GmbH offers complete combustion solutions including burner technology for production of high quality float glass.

- » **COMBUSTION SYSTEM / OXYFUEL / NG - LPG / OIL**
- » **BURNER TECHNOLOGY**
- » **FAILSAFE SYSTEMS SIL 2 / EN 746-2**

we project perfection world wide
